ABSTRACT

The objective of this publication is to present to our guests and the general public attending the 43rd congregation, statistical information about the Kwame Nkrumah University of Science and Technology (KNUST). The information presented in the booklet covers the number of staff and students' population of the University for the 2008/2009 academic year.

The 2008/2009 academic year was challenging for the KNUST, considering the number of applicants seeking admission. In all, 18,230 applications were received. However, only 9,298 (51%) could be admitted due to limited academic facilities. The student population marginally increased from 24, 188 (in 2007/2008) to 24,695 in the 2008/2009 academic year. The percentage composition is 72% (17,804) males and 28% (6,891) females. The foreign component was only 3%, and they came from over twenty seven (27) countries.

On residential status, 49.1% were accommodated by the eighteen (18) halls of residence and hostels, leaving 50.9% that were non-resident. Private investors are therefore urged to take advantage of the favourable tenure system to provide accommodation facilities for the non-resident students.

The academic staff of the University is 774, and is being supported by 2,488 non-teaching staff.
